CASE

SUBJECT: GENERAL OPERATIONAL

SPECIFIC Identification of KIBITZ-201REF: EGFA-163

DECLASSIFIED AND RELEASED BY
 CENTRAL INTELLIGENCE AGENCY
 SOURCE/METHOD/EXEMPTION 3B2E
 NAZI WAR CRIMES DISCLOSURE ACT
 DATE 2005

1. Subject of reference is hereby identified as KIBITZ-201.

2. Subject, as noted in PRQ, Part 1 and as emphasized by KIBITZ-15 who furnished PRQ, is a Balkan "expert". In discussing subject with KIBITZ-15, he told me that subject was quite interested in returning to the Balkan area for three reasons: 1) He knows the country and can make a living there. 2) He would be willing to perform anti-Communist tasks as he considers himself and as KIBITZ-15 considers him, a "soldier of fortune type". 3) He wishes to get away from his wife.

3. In addition to these reasons why subject desires to return to the Balkans, he also, according to KIBITZ-15, has necessary business connections which will enable him to become a legal businessman travelling behind the Iron Curtain. As we are quite involved operationally with KIBITZ-15 already and for insuring the stayability of the net he has created for us, I am very dubious about using subject in Balkan operations or in any way other than the KIBITZ program. Regarding the latter, KIBITZ-15 does not feel that subject would be interested in our type program here in Western Germany. It is believed that letting KIBITZ-15 expand or use anybody of this type in other operations, would be very disadvantageous security wise to the KIBITZ program.

4. I have discussed the possibility of using subject in the legal travel exploitation field with agrees with me that we should not use the man in the legal travel field.

5. Name checks, however, on subject should be made. Further operational use of subject will be held up until some future date. If you believe that the Balkan Desk should be interested in subject, please forward a copy of PRQ, Part I to them for information only. It is requested that if they have any operational interest in subject, undersigned be informed before any action is taken.
